

1020

My family and I have been fortunate to have Dr. O'Connor as our family doctor for several years now. I really appreciate his approach to medicine. His advice is evidence-based, and ~~he~~ ~~takes~~ collaborative, so it's nice to tackle medical problems together as a team. The office environment is tremendous and it's fun to see the latest improvements each time I visit. I'm looking forward to seeing the orchard I understand is being planted. I am very happy with the care I've received from Me'Chosen Medical and can highly recommend the practice to prospective patients and doctors.
