This is such an extraordinary doctor's office. To begin with, the parking situation is excellent, with lots of parking space and a wide berth, for backing up, safely. As you enter Dr. Robert K. O'Connor's medical waiting room you will encounter the most spectacular view, ocean view, that will take your breath away. Dr. Robert's predominantly glass waiting room captures this view, so the wait, which is almost always on-time, is very pleasurable. As you enter this uplifting, tidy, clean, waiting room you will be greeted by one of Dr. Robert's four lovely, smiling, polite, caring, sweet receptionist. The seating is comfortable and if you can take your eyes off the view, there are many interesting magazines to read. There is also toys and books for the children to read, to occupy themselves.

Three generations of my family feel "Very Blessed" to have Dr. Robert K O'Connor as our GP.

Dr. Robert is prompt, kind, approachable, thorough, understanding, intelligent, compassionate and does not rush you or limit you, to "just one problem or question". I can't say enough for the care we have all received these past 7.5 years, under his care.

The parking lot, walkway, waiting room, and the doctor's office are always clean and inviting. There is even a lovely fireplace flickering in Dr. Robert's office that goes along with the comfortable atmosphere you will encounter here.

This G.P., his staff, location, his office couldn't be any nicer.!
