Three major things I really like about Me'Chosen Medical: The setting staff & doctor, Office looks out on magnificent view of Juan de Fuca Strait. Makes your spirit soar when you enter. Gotta be B.C.'s most beautiful medical office. Then there's Donna, Roxy + Lisa who make the office's operations hum with a dispatch & charm that would make Mary Poppins proud. Never met more welcoming, bright-eyed ladies who ensure my prescriptions & appointments with specialists are managed. What I most treasure about Dr. Rob O'Connor is his ability to quickly & accurately to figure out what the hell's wrong with me & fix it. Saved my life twice by his quick diagnosis & getting me help I needed. To boot, he's a really special, caring human being!
