you get the news — relatives
are coming from a long distance to visit —
It here should be the first place to take them ??
You want to impress them — maybe even blow their minds —
where !?! Well, that is no problem for me — it has to be my family
physician's waiting area!! Think I'm exaggerating ?? — Not even a little!!
The environment, a warm, friendly group of staff — even efficient!!
And BONUS — the patients — the best! (Except maybe this
crotchety old gal, when her arthritis is kicking up.)
Think there could be a little embellishment going on here ??
Well then, I challenge you — come on see for yourself — take up
my challenge — I'll be waiting!!
